PROFILE

Freelance MERN developer and content creator building fast, secure, and user-friendly web apps for SMEs and startups. Strong focus on clean UI, performance, and payments integration (Paystack/Flutterwave). Available for remote projects and contracts.

EXPERIENCE

Wigatechz — Freelance Web Developer & Creator   2022 – Present • Remote (NG)

- Delivered **20+ projects** including business websites, e-commerce fronts, and admin dashboards.
- Built a pharmacy store app (React + Vite + Tailwind) with **cart drawer** and **Paystack** checkout.
- Shipped serverless functions on Vercel for contact forms and lightweight APIs.
- Produced tech tutorials and UI/UX walkthroughs for YouTube and social channels.

Upwork / Fiverr — Freelance Developer   2021 – Present • Remote

- Built landing pages and business sites optimized for conversion and mobile performance.
- Implemented SEO basics, analytics, and automated deployments with GitHub + Vercel.

SELECTED PROJECTS

- **Pharmacy Store** — React + Tailwind, Paystack; multi-page with Admin and serverless APIs. (Vercel-ready)
- **KinglawParadiseBuilders** — Construction business site; responsive UI, gallery, WhatsApp CTA.
- **IfyWigaTechz Academy** — Training landing pages, course flyers, and certificate templates.
